Professional Summary

Computer Science and Design undergraduate specializing in **Full-Stack Software Development** with strong foundations in **Data Structures and Algorithms (DSA)**, **Object-Oriented Programming (OOP)**, **DBMS**, **Operating Systems**, and **Computer Networks**. Skilled in building and deploying **full-stack web applications** using **JavaScript**, **React.js**, **Node.js**, **Express.js**, and **MongoDB**, with hands-on experience in **RESTful API design**, **authentication and authorization**, **MVC architecture**, **database modeling**, and **Agile/SDLC practices**. Solved **750+** coding problems, including **700+** DSA problems. Seeking a Software Engineering Trainee role to apply strong problem-solving and full-stack development skills to real-world products.

Technical Skills

Programming Languages: C++, JavaScript (ES6+)

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, EJS, RESTful APIs, Responsive Web Design, MVC Architecture

Databases: MongoDB, MySQL, Mongoose, Database Design

Backend & Security: Authentication, Authorization, Passport.js, JWT, Joi, CRUD Operations

Core Computer Science: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Tools & Practices: Git, GitHub, Version Control, VS Code, npm, Docker, Postman, Netlify, Render, Agile/SDLC

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Ownership

Projects

StayNest – Full-Stack Hotel Booking Platform | [Live Demo](#) | [GitHub](#) | Node.js | Express.js | MongoDB | EJS

- **Full-Stack Development:** Designed, built, and deployed a full-stack hotel booking application using **Node.js**, **Express.js**, **MongoDB**, **EJS**, and **JavaScript**, following **MVC architecture** for scalable, maintainable code.
- **Backend & API Development:** Engineered **RESTful APIs**, **CRUD operations**, **database schemas**, **server-side business logic**, and **input validation** using Express.js, Mongoose, and Joi, ensuring robust data integrity.
- **Authentication & Features:** Implemented **secure authentication and authorization**, along with hotel listings, bookings, reviews, and image uploads using Passport.js and Cloudinary.

AKTU CGPA Calculator | [Live Demo](#) | [GitHub](#) | HTML5 | CSS3 | JavaScript

- **Development:** Developed a responsive **SGPA/CGPA calculator** using HTML5, CSS3, and JavaScript with automated credit-based calculation logic and client-side form validation.
- **Impact:** Implemented **DOM manipulation and dynamic result rendering**; deployed on **Netlify** and adopted by **100+ students** for real-time academic tracking.

Personal Portfolio Website | [Live Demo](#) | [GitHub](#) | React.js | Vite | Tailwind CSS

- **Frontend Development:** Built and deployed a fully responsive portfolio using **React.js**, **Vite**, and **Tailwind CSS** with a reusable, component-based UI architecture.
- **Features:** Integrated project showcases, technical skills, certifications, coding profiles, resume, and contact details, optimized for both desktop and mobile users.

Achievements

Problem Solving: Solved **750+** coding problems, including **700+** DSA problems, across LeetCode, Codeforces, and other competitive programming platforms.

Competitive Programming: Achieved a **1415 contest rating** and participated in **6+** contests across LeetCode, Codeforces, and AtCoder.

Coding Consistency: Maintained **350+** active coding days through consistent, disciplined practice of data structures and algorithms.

Hackathon: Participated in **Smart India Hackathon (SIH)** as a team member, contributing to a software-based solution for a real-world problem statement.
